

Dear Sir/Madam,

Hope you are doing well. My name is Don Tang. I would like to introduce our company and equipment to your esteemed company.

We are puller manufacturer with decade years experience in Foshan city which was the aluminum profile production center of China. We are focused on puller in these years and accumulate the valuable experiences regarding design, fabrication and after sale service.

We have got experienced mechanical and electrical engineers who work for the company since its establishment. The machine's design and technology are based on the foundation of Siemens automatic technology, since it adopts Siemens PLC S7-1200(program self designed), Siemens servo motors, and Siemens electrical components. The transmission adopt rack and pinion design, just as OMAV does. As a result, the machine runs stable and reliable, especially suitable for high quality and high precision extruding. Most top China aluminum extrusion companies are our faithful clients. For your information, our machine has got CE certificate.

Under modernized management and strict quality control, we inspect every part rigidly no matter machining by our worker or sourcing from outside. We have got 2 workshops, one is for the machining and painting, another is for assembling and debugging, the wide and neat workshops make all procedures are orderly.

CERTIFICATE OF CONFORMITY

83715/2230/C

Contract No. CHG20032636

This is to declare that the technical file of the products identified below complies with the essential requirements of European Directive 2006/42/EC (Machinery) and safety objectives of European Directive 2014/53/EU (EMC).

Description
ALUMINIUM PROFILE EXTRUSION PULLER

Models
YH-ST-XT, YH-SQY-XT, YH-OQY-D-XT

Reference standards
**EN ISO 12100:2010,
EN 60204-1:2018**

Applicant
FOSHAN JINHAN YUEHANG MACHINERY EQUIPMENT CO., LTD.
Tang-Lian-Bel-She Industrial Zone, Song-Xia Industrial Park,
Nanhai District, Foshan City, Guangdong Province, China (PRC)

According to the procedures established by the above mentioned European Directives,
the Applicant shall sign the declaration of conformity.

The Applicant declares that the CE mark and the CE mark are used in conformity with the requirements of the CE mark. The Applicant is responsible for the technical file of the products identified above. The Applicant is responsible for the technical file of the products identified above. The Applicant is responsible for the technical file of the products identified above.

Revision No. 0
Date of first issue: 23 March 2020

Expiration date: 22 March 2025

Technical specifications

Model	YH-ST-XT	YH-SQY-XT	YH-OQY-D-XT
Rated voltage [V]	380	380	380
Rated power [kW]	600	5000	
Electrical supply	AC	AC	AC
Nature of supply	3P	3P	3P
Rated frequency [Hz]	50	50	50
Width [mm]	1500 - 3000	3000 - 3500	1000 - 1500
Length [mm]	32000 - 60000	32000 - 60000	32000 - 36000
Height [mm]	1500 - 2500	1500 - 2500	1300 - 2000
Machine mass [kg]	6000 - 90000	12000 - 40000	6000 - 8000
Total rated power [kW]	6 - 40	12 - 70	6 - 9

Most of our cost are based on China supply chain hence price is rather reasonable. We are the biggest Siemens parts buyer in the aluminum puller field in China, have very good relationship with Siemens agency therefore can get strong support from them regarding procurement so that our delivery time is assurable.

We have an experienced team of after sales service, they install and commissioning more than 200 sets of puller annually around the world. In these special time of covid-19, all our exported machine had been installed and debugged by the customer or 3rd party while our engineers and technicians provide guidance online. That way works.

Whenever you are going to expand your business or update your production line, we are glad to provide you technical proposal and quotation, so that you would have more reference and option.

Reference list and catalog are available upon request and welcome your inquiry at any time.

Thanks for your attention and have a nice day!

Best regards

Don Tang (sales representative)
